

Stainless Steel Multi Stage Pumps

CMH8 Series

- Stainless steel pump casing and impellers
- Continuously Rated Duty
- T.E.F.C. Motor protection IP55
- 316 Stainless steel shaft
- Thermal overload protection with single phase models
- Cast iron inlet and outlet ports
- Operating conditions
 - Liquid Temperature -20°~70°, Hot water
 - Max environmental temperature: +50°
 - Operating pressure: 10 bar
- **Ideal for:**
 - Industrial washing
 - Demineralised water
 - Pressure boosting
 - Water pumping for air conditioners
 - Water treatment plants
 - Fire fighting system's
 - Pressure systems combinations
 - Water diversion systems
 - Water treatment
- Max Head: 55M
- Max Flow: 10.0 cubic metres per hour

MODEL	kW	Phase	Q (m³/h)	1.0	2.0	3.0	4.0	5.0	6.0	7.0	8.0	9.0	10
