

Tank to Home

Waterboy Wizard

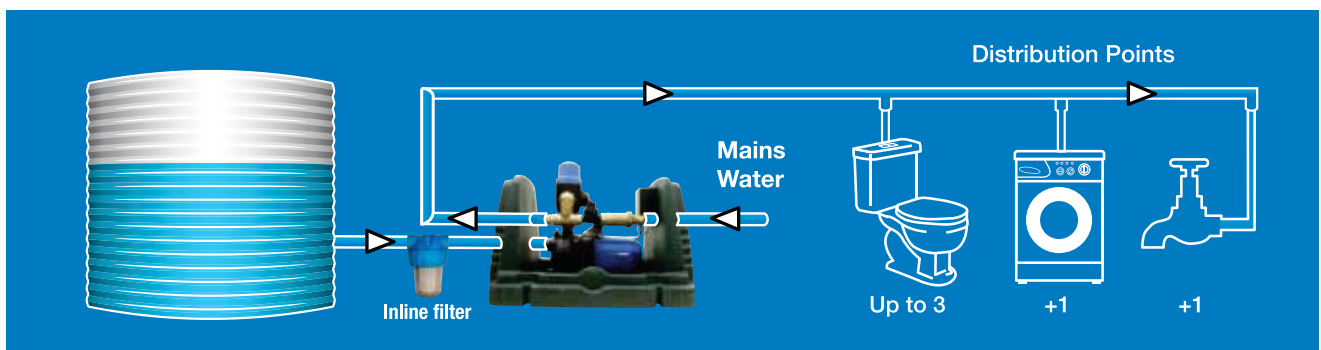

Waterboy WIZARD

Waterboy Wizard UP-WB45 & UP-WB60

The "Waterboy Wizard" is an innovative, Australian assembled, rainwater enclosed bypass system that is a leading water saving product in its field. It is preferred by a number of leading builders and irrigation specialists.

Waterboy Wizard allows home owners to get the highest possible water savings from their rainwater tank. Ideal for above ground tanks of any size the Waterboy Wizard provides water supply from the tank to the homes toilet, washing machine and garden tap. This equals hundreds in savings on your water bill.

Turn your home into a sophisticated rain harvesting station with Universal Pumps new Waterboy Wizard.

Advantages

- Come completely enclosed in neat, UV protected housing
- Automatically switches from tank supply to mains supply if there is no water in the tank or there is a power or pump failure
- No requirement for a float
- Simple installation, no hardwiring or drilling - only 3 connections
- Dry run safety mechanism
- Inline pump protective filter
- Range of earthy colours to choose from for the housing
- 45 L or 60 L option depending on the flow required

Installation:

- Must be installed by a licensed plumber

Model	Flow (l/min)
