

## SMHW Range

The SMH is the premium above ground pump for urban rain water applications. With quiet, efficient operation, high pressure and extremely strong construction, this pump is durable in both urban and rural environments. The exclusive Dry Run Over-Temperature Protection system adds to the durability by preventing costly pump damage through dry running. Coupled with WaterSwitch the SMHW range provides a premium automatic rainwater control system that is second to none in this application.

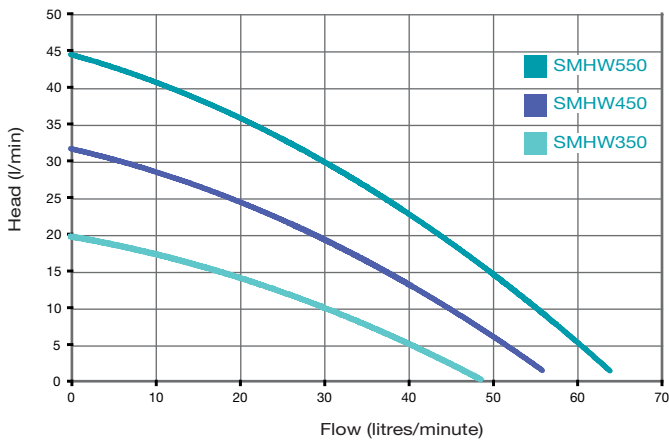

SMHW350

**Applications:** Broad range of urban water applications where low noise and efficiency are key decision factors.

### SMHW Performance

### SMHW Performance Table

Model	Watts P <sub>2</sub>	Operating Pressure (kPa)	Suction Depth (Metres) Capacity (Litres per Min)			Port Size (BSP)	
			0	1.5	3	Suction	Discharge
SMHW35	450	140	20	18	16	1" F	3/4" F
SMHW45	550	140	39	35	31	1" F	3/4" F
SMHW55	750	140	51	45	42	1" F	3/4" F
