

Pentair Water answers the latest issues in the Swimming Pool Industry with the release of the SilentFlo range of pumps.

These are the quietest and most efficient pumps available, to minimise the cost and maximise the enjoyment of pool ownership.

## Typical Applications

- Pools from 20,000 litres up to 130,000 litres.
- High quality pools where quiet operation is a must.
- Pools where high efficiency is required.

Features	Benefits
<b>Extremely quiet hydraulic design</b>	Your customers will be able to run this pump at night, without disturbing the neighbours. This allows them to take advantage of low cost off-peak tariffs.
<b>Extremely efficient hydraulic design</b>	Minimises running costs for your customers - more turnovers for less dollars
<b>Elevated base - further dampens sound and vibration, and keeps the pump above sitting water</b>	Even quieter operation, and minimises pump corrosion by keeping it out of the water
<b>Stainless Steel motor shaft</b>	Extends the life of the pump by reducing corrosion
<b>Large volume strainer basket</b>	Minimises the maintenance requirement by extending the time between strainer basket clean outs
<b>Included 50mm barrel unions</b>	Quick and easy to install, while allowing pump removal without flexing pipework
<b>Dual connections: 50mm thread or 50mm barrel unions</b>	Allows piping flexibility - threaded connections allow for permanent installation - service is still possible by removing the motor and yoke from the casing
<b>Thermoplastic casing and hydraulic parts</b>	Total corrosion resistance for long life and peace of mind
<b>Electrical approvals</b>	The SilentFlo range of pool pumps have passed all the requirements of AS/NZS 60335.2.41:2004 for safety, and is approved for installation within the wetted zone of the pool area
<b>Captive bolts</b>	Easy servicing, no lost fasteners
