

QUALITY TANKS...Established locally since 1973...

Quality Tanks (Qld) Pty Ltd manufacture and install precast concrete rainwater tanks for the domestic and commercial markets. All tanks come with a 10 year manufacturer's warranty. We have been under the same ownership since 1993.

Two of our most popular tanks are our in-ground rainwater tanks, 10,000L and 22,500L that are completely buried underground with trafficable lids. These tanks can be installed under driveways, tennis courts, garage floors, car parks, under lawn areas or to blend in with your environment.

- 5000L to 32500L CAPACITY
- IN GROUND APPLICATIONS
- COMMERCIAL APPLICATIONS
- SUPPLY ONLY OR INSTALLATION AVAILABLE

All you see is a 600mm steel gatic lid which of course can be painted or covered to suit your requirements.

Our standard rainwater tanks are available in 5000L, 10000L, 22500L and 32500 litres. These tanks are not fully buried leaving approximately 500mm showing above ground.

We offer complete supply and installation and free quotations. Please contact our office for more details or to arrange for one of our sales team to meet with you on-site if required.

All tanks can be supplied with water pumps and all other accessories. Our sales team can recommend the best pump to suit your needs.

Quality Tanks offers a one-stop-shop for all your concrete water tank requirements, for all home or commercial applications.
